

# Enviroglas™

## Low maintenance glass for conservatory roofs.

Enviroglas™ is the innovative new low maintenance, environmentally glazing concept specifically designed for conservatory roofs. Available exclusively to customers of K-Seal Glass Ltd, Enviroglas™ has been designed to perform in all climates and conditions whilst protecting the environment from harmful CO2 emissions and reducing your energy costs at the same time.

The unique Enviroglas™ range, which is now available in either 1.1 or 1.5 u value options, significantly helps to keep conservatories cool in the summer and warm in the winter, offers an additional host of unique features including improved sound insulation, self cleaning, solar control and low maintenance.

High Specification + Low Maintenance = Increased Value.
